

◆ PRODUCT INTRODUCTION:

The marine pilot ladder magnet uses a magnet with super strong adsorption capacity, which can firmly adsorb on rough or uneven ship shells and any iron material surface.

A stainless steel ring on the back that can be connected to the water ladder rope to prevent it from swinging. This product is safe, reliable, and easy to install.

Pilot Ladder Magnet has been designed to create safer environment for pilots crew on and off boarding in harbor. The pilot ladder magnet is lightweight and easy to remove from the hull without generating excessive force.

◆ PRODUCT PERFORMANCE PARAMETERS:

Verification load: 300kg/500kg

Color: Orange

Material: Qintie boron magnet

304 stainless steel /45#

Nylon

Packaging: PE plastic packaging box

Scope of application: Water bodies, ships

Certification: CCS
